

Refurbishment Kits for 747-400/767 JAMCO Lavatories

Prepared by JAMCO Corporation

Outline

- n The JAMCO Looks New Refurbishment Kits help customers update their lavatories at a great cost saving over purchasing individual spares. For more detailed information, please contact your nearest JAMCO Product Support Department shown on the last page.
- n JAMCO offers customers a variety of options in stages.
- n The Looks New Refurbishment Kits save up to 60lbs of weight per shipset when customers choose both Stage 1 and 2 (applicable to 747-400 lavatories only).
- n Customers can issue a purchase order on a lavatory unit basis.

Recommendations

- n You can expect tremendous visual improvements on 747-400/767 lavatories that have been in service for 5+ years.
- n Best done on 747-400/767 lavatories for which aircraft heavy maintenance is scheduled and dates are firm.

Certification

- n The parts contained in these kits are Boeing/FAA approved parts. All parts are identical with production parts and are replaceable with parts currently in your lavatories.
- n No new certification tasks are required.

Details of the Kits

- n The Refurbishment Kits come in three stages, chosen according to customer preference.
- n The kits will be delivered as Service Letter (SL) Kits on a lavatory unit basis within 30 days ARO.

Stage 1 - Basic

n Cosmetic Parts Frequently Touched By Passengers.

- Toilet Shroud with Seat and Lid.
- Waste Flap
- Bi-Fold Door Spring
