1. Qualitative Information on Quarterly Financial Results for the Period under Review

(1) Explanation of Operating Results

During the third quarter of FY 2022, while the global economy showed signs of recovery from the effects of the COVID-19 pandemic, the situation remained uncertain due to concerns about a recession resulting from global inflation, including soaring crude oil prices and rising raw material prices caused by the prolonged crisis in Ukraine. Under these circumstances, the dollar-yen exchange rate moved within the range of ¥122 to ¥150 per US\$1.

In the air transportation industry, in addition to recovery in domestic flight demand, a gradual recovery is seen in demand for international flights as countries ease or do away with entry restrictions, and some airlines have begun to return out-of-service aircraft to service and place a large order of new aircrafts. Aircraft manufacturers, as well, are working on increasing production of aircrafts with the recovery of air passenger demand.

As air passenger demand shows recovery in these ways, the Group has sought to achieve readiness for the rebound in demand by transferring back employees seconded to companies outside the Group and beginning to recruit new graduates. In the production process, we continued activities to improve operational efficiency in preparation for further demand rebound, initiated plans to expand the capacity and functions of a factory in the Philippines, and to strengthen our supply chain both in Japan and overseas. In addition, we actively worked on sustainability initiatives.

In the aircraft interiors business, the recovery in airline passenger demand has led to an increase in demand for maintenance parts and cabin modification in order to utilize aircraft owned by airlines, and we strengthened efforts toward a stronger production organization to meet the demand. To ease the anxiety of passengers onboard, we carried out product development for ensuring a clean and hygienic cabin and conducted research and proposals with a view to expanding into galleys, lavatories, and seats.

In the aircraft seat business, we devoted efforts to readying versions of the highly profitable Venture business class seat for additional aircraft types, as well as to the development of the next generation Quest for Elegance business class seat.

In the aircraft components business, we took initiatives to improve productivity, and continued with development of lightweight aircraft components using thermoplastic CFRP and expansion in application of CFRP components into fields other than the aircraft sector.

In the aircraft maintenance business, we aimed to strengthen a business base capable of generating stable profits by continuing with initiatives to ensure flight safety and enhance quality, while also endeavoring to acquire orders for aircraft maintenance for airlines and for government and municipal offices.

As a result, on a consolidated basis, during the third quarter of FY 2022, the Company posted net sales of \$31,873 million (up \$5,030 million compared to the same period of the previous fiscal year), operating income of \$1,577 million (an operating loss of \$1,520 million in the same period of the previous fiscal year), ordinary income of \$1,328 million (an ordinary loss of \$1,812 million in the same period of the previous fiscal year), and net income attributable to shareholders of parent company of \$1,231 million (a net loss attributable to shareholders of parent company of \$852 million in the same period of the previous fiscal year).

Provision for loss on construction contracts of ¥4,414 million for construction to be completed in or after the quarterly fourth quarter of FY 2022 was recognized as of December 31, 2022. The impact of this provision for loss on construction contracts on income (loss) for the quarterly third quarter of FY 2022 was an increase of ¥581 million in cost of sales (provision for loss on construction contracts as of September 30, 2022 was ¥3,833 million) and, for the cumulative third quarter of FY 2022, an increase of ¥585 million in cost of sales (provision for loss on construction contracts as of March 31, 2022 was ¥3,828 million).

For the entire Group, selling, general and administrative expenses, non-operating income (expenses), and extraordinary income (loss) are as follows:

Selling, general and administrative expenses were ¥6,041 million (an increase of ¥531 million compared to the same period of the previous fiscal year), due mainly to increases in personnel expenses and sales commissions.

The result for non-operating income (expenses) was a loss of ¥248 million (a loss of ¥292 million in the same period of the previous fiscal year), due to factors such as an increase in interest expenses mainly reflecting higher U.S. interest rates, despite an increase in foreign exchange gains as the yen value dropped on the foreign exchange market from the end of the previous fiscal year.

The result for extraordinary income (loss) was a gain of ¥478 million (a gain of ¥417 million in the same period of the previous fiscal year), which consisted mainly of ¥461 million of gain on transfer from sales of non-current assets held by JAMCO SINGAPORE PTE LTD., the Company's consolidated subsidiary.

Business performance by segment is as follows.

[Aircraft Interiors Business]

In the aircraft interiors business, net sales increased from the same period of the previous fiscal year due to increased sales of spare parts to airlines as the number of aircraft in operation grew. Meanwhile, ordinary income increased thanks to improvement in operational efficiency, and foreign exchange gains resulting from the depreciation of the yen, as well as the increase in net sales.

As a result, the aircraft interiors business posted net sales of \(\xi\)20,256 million (up \(\xi\)4,291 million compared to the same period of the previous fiscal year) and ordinary income of \(\xi\)2,807 million (up \(\xi\)2,741 million compared to the same period of the previous fiscal year).

[Aircraft Seat Business]

In the aircraft seat business, net sales increased from the same period of the previous fiscal year, as shipments of the Venture business class seat were started. On the other hand, an ordinary loss was posted due mainly to the increase in dollar-denominated costs caused by the depreciation of the yen.

As a result, the aircraft seat business posted net sales of \$2,279 million (up \$127 million compared to the same period of the previous fiscal year) and an ordinary loss of \$1,537 million (ordinary loss of \$1,705 million in the same period of the previous fiscal year).

[Aircraft Components Business]

In the aircraft components business, net sales decreased from the same period of the previous fiscal year as shipments of heat exchangers or other equipment, chiefly defense-related ones, were postponed to the fourth quarter of FY 2022 or later, despite an increase in shipments of CFRP structure parts for commercial aircraft products. On the other hand, despite the decrease in net sales, ordinary loss improved thanks to initiatives taken to improve profitability.

As a result, the aircraft components business posted net sales of \(\frac{\pmathbf{\frac{4}}}{3}\),109 million (down \(\frac{\pmathbf{\frac{7}}}{4}\) million compared to the same period of the previous fiscal year) and an ordinary loss of \(\frac{\pmathbf{\frac{4}}}{68}\) million (ordinary loss of \(\frac{\pmathbf{\frac{2}}}{273}\) million in the same period of the previous fiscal year).

[Aircraft Maintenance Business]

In the aircraft maintenance business, net sales increased from the same period of the previous fiscal year due to an increase of construction to be completed for some programs in parts maintenance. Meanwhile, ordinary income increased due to an increase in net sales.

As a result, the aircraft maintenance business posted net sales of \(\xi_6,225\) million (up \(\xi_684\) million compared to the same period of the previous fiscal year) and an ordinary income of \(\xi_127\) million (up \(\xi_8\) million compared to the same period of the previous fiscal year).

[Others]

The Others segment includes the businesses of consolidated subsidiary Orange JAMCO Corporation. The focus is on inter-segment transactions, including cleaning and assistance work in the Company's facilities.

As a result, the Others segment posted net sales of ¥1 million (up ¥1 million compared to the same period of the previous fiscal year) and ordinary loss of ¥0 million (ordinary loss of ¥19 million in the same period of the previous fiscal year).

(2) Explanation of Financial Position

(Assets, Liabilities, and Equity)

Total assets as of December 31, 2022 amounted to ¥ 97,567 million, up ¥3,916 million from the end of the previous fiscal year. Of this amount, total current assets increased by ¥4,235 million from the end of the previous fiscal year, as despite the decline in notes and accounts receivable - trade, and contract assets by ¥4,155 million, work in process increased by ¥6,495 million, and raw materials and supplies increased by ¥2,910 million from the end of the previous fiscal year. Total non-current assets decreased by ¥319 million from the end of the previous fiscal year, as property, plant and equipment decreased by ¥588 million and intangible assets increased by ¥313 million from the end of the previous fiscal year. Total liabilities amounted to ¥84,987 million, up ¥2,431 million from the end of the previous fiscal year. The main factor was a rise in short-term loans payable by ¥1,773 million and an increase in advances received by ¥1,689 million from the end of the previous fiscal year.

Total net assets amounted to \(\frac{\pmathbf{\text{\t

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

The consolidated financial results forecast for FY 2022 remains unchanged from the revised forecast announced on November 8, 2022.

The exchange rate assumed for the consolidated financial results forecast for the quarterly fourth quarter of FY 2022 remains unchanged at ¥130 per US\$1.
